SE GA BI - PROSPECT RCN 2019

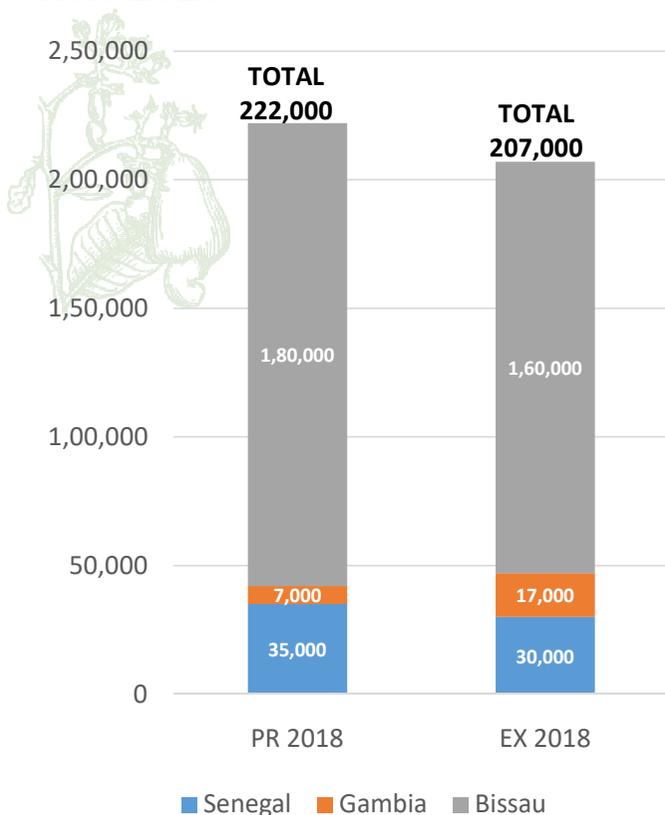

RCN 2019

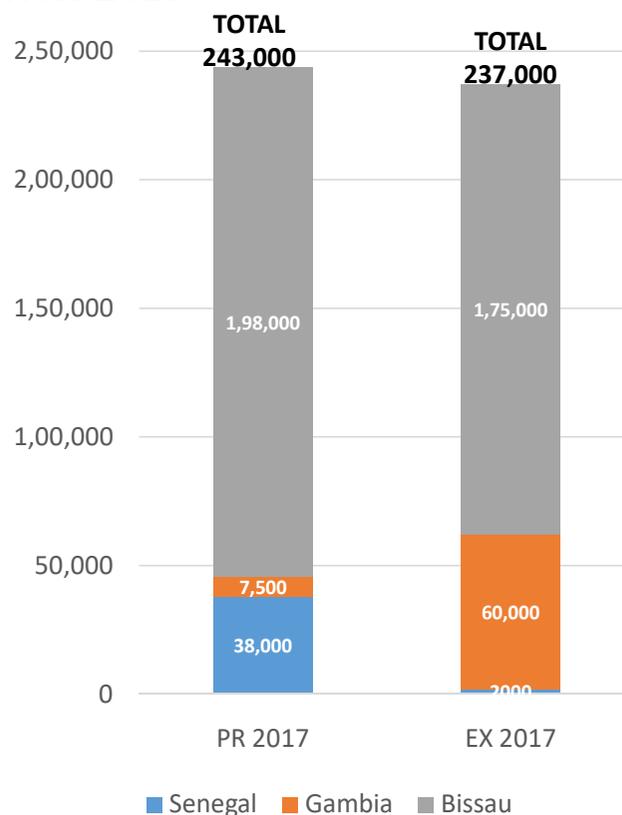

- **Production impacted by:**
 - Climate change - gradually happening – unpredictable - long term consequences.
 - Increase in hectarage
- **Export impacted by:**
 - Government Policies: Political/Administration intervention results in crop being held by farmers / traders hoping for higher promised prices or results into movement into neighboring countries.
 - Market Realities
 - Kernel supply and demand
 - Cargo held in villages - results in quality drop
 - Bankers and Financial institutions – reduced confidence in trade
 - Higher risk collateral requirement
 - Shipping company's increased risk factor
